2. Read, choose the weather and write the temperature

This is the weather report for our continent — dear old Europe.

Yesterday was not different from the rest of the week. In the north it was cold as usual. In the south it was warm as can be expected for this time of the year.

London was foggy with a temperature of 12 degrees centigrade.

It was windy and cloudy in Berlin. And the temperature was 9 degrees centigrade.

In Madrid it was rainy again. Usually wet for this time of the year. And the temperature was 15 degrees centigrade.

Let's see what the weather was like farther south. So, in Rome the weather was really beautiful. It was sunny and warm and the temperature was wonderful — 22 degrees centigrade.

The north of our continent was the coldest. Actually, it was even colder than usual. In Oslo the temperature was only 0 degrees and there was even a snow storm.

And now let's see what the weather will be tomorrow...

town	weather	temperature
London	hot foggy	
Berlin	windy warm cloudy sunny
