Discovered Mayan Artifacts

Archaeologists have discovered about 200 Mayan artifacts in Mexico that (1) _____.

The artifacts were found inside a cave in ruins of the ancient Mayan city. Mexico's National Institute of Anthropology and History announced the discovery during a press conference in Mexico City.

The lead researcher on the project Guillermo de Anda called the cave a "scientific treasure". He said the artifacts appear to date back to around A.D.1000. "What we found there was incredible, and completely untouched," he added.

The findings included bone pieces. In addition, vases, plates and (2) _____. The cave where the objects were found is part of a cave system (3) _____. The cave is about three kilometres east of the main pyramid of Kukulkan, which sits at the center of Chichen Itza. The stone city is described by the United Nations as (4) _____.

De Anda added that his team had explored about 460 metres of the cave, and is unsure how far it stretches. The team plans to continue exploring the cave. Artifacts found will not be removed, but studied inside, he said.

LIVEWORKSHEETS

The team accidentally found the artifacts while exploring Chichen Itza in an effort (5) _____. A series of lakes can be seen on parts of the surface. But the archaeologists are exploring other water sites below pyramids, temples and other buildings.

The cave had been discovered by local people 50 years ago, (6) _____, de Anda says. He hopes the new discovery will help scientists better understand the history, lives and beliefs of people who lived in Chichen Itza. He says archaeologists believe there may be another undiscovered cave hidden under the pyramid of Kukulkan that could be connected to the latest find.

A. known as Balamku or "Jaguar God"

B. to learn more about its underground water system

C. to find out unusual objects

D. appear to have been untouched for 1000 years

E. other objects were discovered

F. but was not fully explored

G. other animals were discovered

H. one of the greatest Mayan centres of the Yucatan Peninsula

III. Read and complete the gaps in the text with the correct option.
