

UNIT 7 REVIEW

MATTER

Materials

gram
cubes

2 metal marbles

ice cube

water

milk

Let's Investigate!

How are objects different?

1. Observe all the objects.
2. Classify the objects.
Put the solid objects together.
Put the liquid objects together.
3. Classify each object as hard or wet. Use the chart. Make an **x** for each object.

Observations

	Hard	Wet
Gram cubes		
Metal marbles		
Ice cube		
Water		
Milk		

Lesson 1

What is matter?

- 1 Draw one thing that has more mass than a pencil.

Lesson 2

What are solids, liquids, and gases?

- 2 Circle the correct word.
- a) Freezing changes a **liquid** / **gas** into a solid.
 - b) **Boiling** / **Melting** changes a liquid into a gas.

Lesson 3

How can matter change?

- 3 Circle the word that does not belong.
- a) When wood burns, it changes to
ash, water, rust, and gas.
 - b) Rust is a kind of matter made from
iron, ash, and oxygen.
