| 9). | A). student | B). menu | C). fur | D). tutor |
| 10). | A). hot | B). here | C). hour | D). hope |

***II. Reading and choose the best answer.***

Strange things happen to time when you travel, because the earth is divided into twenty- four time zones, one hour apart. You can have days with more or fewer than twenty- four hours, and weeks with more or fewer than seven days.

If you make a five- day trip across the Atlantic Ocean, your ship enters a different time zone every day. As you enter each zone, the time changes one hour. Traveling West, you set your clock back; traveling East, you set it ahead. Each day of your trip has either twenty - five or twenty - three hours.

If you travel by ship across the Pacific Ocean, you cross the international date line. By agreement, this is the point where a new day begins. When you cross the line, you change your calendar one full day, backward or forward. traveling East, today becomes yesterday; traveling east, it is tomorrow.

11). The difference in time between zones is .....

A). seven days B). more than seven days

C). one hour D). twenty - four hours

12). From this selection it seems true that the Atlantic Ocean .....

A). is in one time zone B). is divided into twenty - four zones
