

## SCIENCE: EARTH'S MAJOR SYSTEMS: PAGES 98/99

 Read these pages and decide if these characteristics describe the GEOSPHERE, the ATMOSPHERE, the HYDROSPHERE or the BIOSPHERE:

a)	Ice and snow are included in	the	ahere	Hydro
b)	Rocks and Earth's solid are p	part of the	A Country of the Coun	Hydrosome
c)	The	is made of gases.	* (2)	200
d)	The	has all the living things on Earth.		
e)	Rivers, lakes and oceans are	e part of the	Sarakola	o laudea of
f)	Humans live here in the		-0/8	9197
g)	The	can be seen from the space as a	blueish thin layer.	
h)	Sediments and soil can be for	ound in the		
i)	All the liquid water from the E	Earth is seen in the		

2. Look at this picture and label each part paying attention to what we have studied:

3. Decide where these elements belong to: the GEOSPHERE, the ATMOSPHERE, the HYDROSPHERE or the BIOSPHERE:
