GRAMMAR FOR SPEAKING The Simple Present vs. the Present Continuous

We use the **simple present** to express:

1. repeated actions or habits: *He **goes** to work at 8:00 every day.*
2. actions or states that are always true: *Photographers **take** pictures.*

Note: We use the simple present with adverbs of frequency (*never, rarely, occasionally, sometimes, often, usually, always*) to say how often we do things.

We use the **present continuous** to express:

1. actions happening now: *She **is taking** a photo.*
2. actions happening around this time: *I **am traveling** a lot these days.*

Note: We use the present continuous with expressions like *now, right now, and at this moment.*
