Reading and answer

Read the text and choose the correct answer.

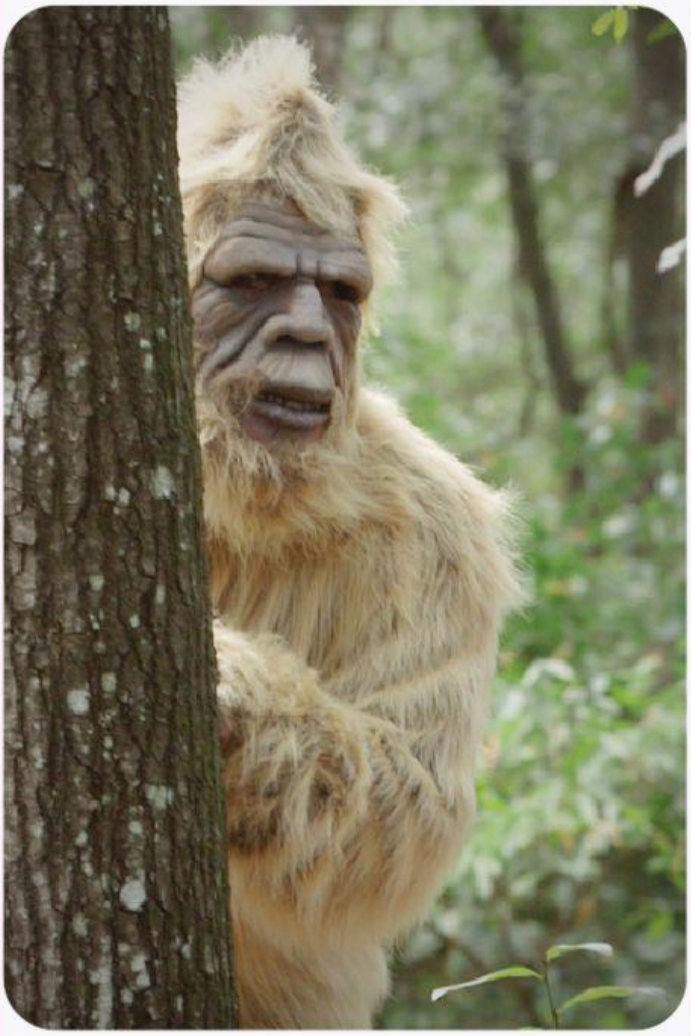

"Yeti"
ESL Tests For Primary Kids

Yeti is the name of a very large animal or monster. People believe that it lives in the Himalayan Mountains in China. It's a very tall monster with lots of white fur.

It sleeps in the day and comes out at night. Lots of climbers come to the mountains every year. They want to see Yeti. But some of them are afraid of it. Another famous monster is Nessy. It looks like a black or green dinosaur. It lives in Loch Ness, a large lake in Scotland.

Some people say it sleeps at the bottom of the lake. Nessy sometimes comes to the surface of the lake and then goes to the bottom again.
