

INTEGRATED AREAS PROJECT: THE HYDROSPHERE

1

This is our planet

Its name is "EARTH"

It has got different parts

They are the
"Spheres of Earth"

2

Today we focus on the HYDROSPHERE

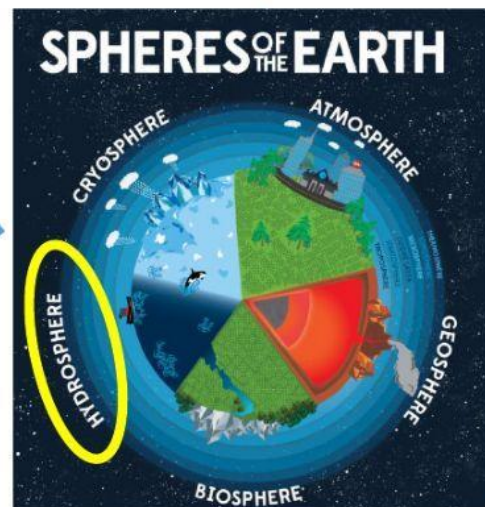

HYDRO = WATER

The hydrosphere contains all the water
on the planet: gas, liquid or solid.

It represents $\frac{3}{4}$ of the planet.

3

Listen.

Then, drag and drop (arrastrar)

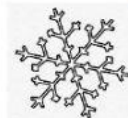

CLOUDS

RIVERS

SNOW

ICEBERG

LAKES

SEAS AND OCEANS

GLACIERS

GAS	LIQUID	SOLID
