## Things I learnt this year

Last year I had exams and I was studying really hard. I often worked until midnight and I ate lots of fast food and sugary snacks. I couldn't sleep because I felt stressed. The result? I got ill. I realised then that it is really important to stay healthy. Now I **1** take care of myself. One thing I have started doing is I'm more careful about what I eat and drink. I have **2** \_\_\_\_\_ fast food completely and I eat lots of fruit and vegetables instead. Another thing I've changed is that I now organise my day so I get enough sleep. I **3** \_\_\_\_\_ a routine and I **4** \_\_\_\_\_ early every day at six o'clock. I don't **5** \_\_\_\_\_ in the evenings any more. I go to bed at 10 o'clock and I always **6** \_\_\_\_\_ my phone in the evening. Now, I can sleep all night and **7** \_\_\_\_\_ refreshed – well, most of the time! I exercise regularly and spend as much time as I can outdoors. I don't get stressed so often these days, but if I do, I always **8** \_\_\_\_\_ my problems with my friends or my mum. What healthy habits do you think you can introduce into your life?
