

Day: _____

Introduction
3 R's (Reduce, Reuse, Recycle)

Date: _____

A. Watch the video to learn more about what is 3Rs.

B. Match the questions to their correct answers.

What is <i>Reduce</i> ?		To save things made from glass, plastic or paper and send them away to make something new
What is <i>Reuse</i> ?		To make less rubbish.
What is <i>Recycle</i> ?		To find another use for it.

C. Group which of these actions under their correct headings.

Plastic carrier bags can be reused as rubbish bags	Keep a recycling bin in your home to remind you to recycle	Buy only what you need	Save glass, card, paper, plastic, aluminium, metal
Buy things which have been made from recycled materials	Paper can be reused for notes and scrap paper.	Buy containers that can be recycled	Look for things with less packaging
	Use rechargeable batteries when you can instead of the ones which you throw away after one use		

Reduce	Reuse	Recycle
