

# REVISION

Exercise 1: Match.

$16 \div 4 + 8$

$90 \div 10 \div 3$

$60 - 5 \times 7$

$0 \div 15 + 10$

$4 \div 4 + 29$

Exercise 2: Choose the correct symbol: > ; < ; =.

$28 \div 4$

$7 \div 1$

$8 \times 4$

$8 \times 5$

$3 \times 4$

$4 \times 2$

$36 \div 4$

$3 \times 3$

$0 \div 33$

$33 \div 11$

$21 \div 3$

$24 \div 4$

\*Exercise 3: Which number can be divided by 1,2,3,4,5 and 10?

20

45

60

# REVISION

Exercise 4: Fill in the blank.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
