Mathematics
Gr. 7

3.3 Subtract Integers

Example 6

1. The temperatures on the Moon vary from -173°C to 127°C. Find the difference between the maximum and minimum temperatures.

2. In Mongolia, the temperature can fall to -45° Celsius in January. The temperature in July may reach 40° Celsius. Find the difference between these two temperatures in Mongolia.

Outcomes

1. Subtract integers
2. Solve real-world problems involving integers
