

Week 21: Addition

1 Complete these 2-digit additions. Show your method.

a estimate:

$$43 + 56 = \boxed{}$$

$$\begin{array}{r} 43 \\ + 56 \\ \hline \end{array}$$

b estimate:

$$67 + 29 = \boxed{}$$

$$\begin{array}{r} 67 \\ + 29 \\ \hline \end{array}$$

c estimate:

$$64 + 72 = \boxed{}$$

$$\begin{array}{r} 64 \\ + 72 \\ \hline \end{array}$$

d estimate:

$$75 + 34 = \boxed{}$$

$$\begin{array}{r} 75 \\ + 34 \\ \hline \end{array}$$

Practice

6 Sort these additions into the table.

$25 + 57$

$75 + 63$

$34 + 52$

$28 + 61$

$54 + 82$

$96 + 21$

$34 + 38$

$69 + 27$

No regrouping	Regrouping ones	Regrouping tens

4 Estimate and then solve these additions. Show your method.

a estimate:

$$233 + 50 = \square$$

$$\begin{array}{r} 233 \\ + 50 \\ \hline \end{array}$$

b estimate:

$$178 + 60 = \square$$

$$\begin{array}{r} 178 \\ + 60 \\ \hline \end{array}$$

c estimate:

$$154 + 65 = \square$$

$$\begin{array}{r} 154 \\ + 65 \\ \hline \end{array}$$

d Estimate:

$$571 + 243 =$$

$$\begin{array}{r} 571 \\ + 243 \\ \hline \end{array}$$

e Estimate:

$$352 + 153 =$$

$$\begin{array}{r} 352 \\ + 153 \\ \hline \end{array}$$
