a	7.85	two	

1.

Let's see. **(1)**……………………….. That's two for **(2)**……………………….. dollar. And a bottle of **(3)**……………………… - $6.50. So that comes to $**(4)**…………………………. and your change is $ **(5)**………………………..

2.

Okay, now-let me see what you've got. The **(6)**……………………….. - a good one, one of my favorite movies- IS $ **(7)**…………………………., and the **(8)**…………………………. are on sale for $ 4.95. So, let me see… That comes to $ **(9)**………………………….. So here's your change, **(10)**………………………. dollars and ten cents.

3.

Yes, can I help you? Ok. Let's see. The **(11)**……………………….. are $1.50 and the magazines will cost another…$ **(12)**………………………….. Yes, so that's, let me see, $**(13)**…………………………., right? Here's your change, $**(14)**…………………………..

4.

So you are taking the **(15)**………………………. - nice choice. The color looks good on you. Ok, that $**(16)**……………………., then the socks. They're another **(17)**……………………., so that's $**(18)**…………………………, and here's your change, $**(19)**…………………….

5.

Mnn, I like chocolates, too. Ok, that's $**(20)**……………………….for the chocolates. And chocolate chip **(21)**…………………………, too. Mnn. You really do like chocolate. The cookies are $2.99. So that's $**(22)**……………………….. and here's your change, $**(23)**…………………………

6.

Is this all? Ok, let's see. Now the magazines are $**(24)**………………………… and you are taking the **(25)**……………………….? That's $12.00. So that comes to $**(26)**…….……………… altoghether. And here's your change. That's a dollar **(27)**…………………………
