Jimmy the Beaver

Jimmy the beaver is a very hard-working beaver. He made his house out of wood and built it in the water because he likes to eat fish.

The other animals were upset that Jimmy ate all the fish so they didn't invite him to the Forest Party.

They heard someone shouting for help. It was Jimmy. He got caught under a pile of fish.

Jimmy was thankful that the animals helped him and apologized for keeping all the fish to himself. They forgave him, and invited him to the party.
