DOCTOR

Doctors work in hospitals and doctor's offices. They help us take care of our body.It is important to always get your check ups and listen to what the doctors says. They listen to our heart, check our throat, weigh us, and make sure we are growing big and strong. To be a doctor, it takes 8 to 9 year to become fully registered doctor and 10 years to be a specialist. It is their job to help the people in need and sick. We are so thankful for doctors.
