The bar chart shows how much South Koreans of different age groups spent on seeing movies, eating out and going to concerts in 2014.

Overall, the  amount of money was spent on going to restaurants (about \$67 million),  with going to the cinema (about \$40 million) and music concerts (also about \$40 million).

The  age group spent the most on going to restaurants at about \$22 million, while the  age group spent the least with only \$13 million. With a total  of approximately \$12 million, the 26-39 category had the highest spending on going to the cinema while the

56–80s spent the least [REDACTED], at around \$8 million.

The 56–80 age group spent far less on going to the cinema and music concerts combined (about \$12 million) compared to all the other age categories. The 18–25 age group [REDACTED] about \$14 million on going to music concerts (more than any other group) but with a [REDACTED] spend of around \$6–7 million each, the 40–55s and 56–80s spent the least on the same [REDACTED].
