NAME: _____

COURSE: _____

Underneath each image, match the pictures with the description of how we can stop the virus as a community.

Description
<p>a) Wearing a mask over your nose and mouth is required on planes, buses, trains, and other forms of public transportation.</p>
<p>b) Clean high touch surfaces regularly or as needed and after you have visitors in your home. This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks. If someone is sick or has tested positive for COVID-19, disinfect frequently touched surfaces.</p>
<p>c) Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.</p>
<p>d) Cover coughs and sneeze: If you are wearing a mask put on a new, clean mask as soon as possible and wash your hands. If you are not wearing a mask always cover your mouth and nose with a tissue when you cough or sneeze, or use the inside of your elbow and do not spit. Throw used tissues in the trash. Immediately, wash your hands.</p>
<p>e) Stay 6 feet away from others: Inside your home (If possible, maintain 6 feet between the person who is sick and other household members) and outside your home.</p>
<p>f) Monitor your health daily: Be alert for symptoms. Watching for fever, cough, shortness of breath, or other symptoms of COVID-19. Take your temperature if symptoms develop. Testing can give you information about your risk of spreading the virus. Regardless of the test type you select, a positive test result means that you have an infection and should isolate and inform your close contacts to avoid spreading disease to others.</p>
