

Name : _____ Date: _____

Subject: Mathematics

Topic: Finding the Missing Symbol

Directions: Chose the correct symbol to make each number sentence correct.

1. $7 \quad 3 = 10$

6. $12 \quad 7 = 5$

2. $9 \quad 5 = 4$

7. $6 \quad 8 = 14$

3. $15 \quad 8 = 7$

8. $30 \quad 20 = 50$

4. $13 \quad 5 = 18$

9. $65 \quad 60 = 5$

5. $14 \quad 6 = 20$

10. $30 \quad 58 = 88$

Directions: Chose the correct symbol to make each number sentence correct to solve the word problems.

1. Andrew's family camped in the Hoosier National Forest. They hiked the 15 miles Two Lakes Loop and the 12 miles Birdseye's trail. How many miles did they hike?

$$15 \quad 12 = \quad 27$$

2. There were 48 children on the playground. Then 34 children went inside. How many children were left on the playground?

$$48 \quad 34 = 14$$
