**Read the passage carefully and answer the questions that follow.**

Brenda was a young beaver. She lived with her family in a lodge made of mud and sticks. It was a cozy lodge in the middle of a large pond but it was getting to small.

Brenda's older brothers were ready to build a new lodge.

Brenda watched her older brothers swim to the edge of the pond and chew on small trees. They bit through the bark with their powerful jaws and kept gnawing. They used their teeth as tools to cut down the trees.

"Can I help you build the new lodge?" asked Brenda.

"You're not big enough to cut down trees," her brothers laughed. "I bet you're also strong enough to drag the trees all the way across the pond to the lodge too"

Brenda was still very small because she was the youngest beaver in her family.

However, she still wanted to help. She swam to the edge of the pond. She noticed that the ground was very soft. Thick mud squished up around her paws. She wiggled her webbed feet in the mud. When she lifted her paws, she found she could carry **it** around. "I'll pack the mud into the gaps between the logs and sticks. This will make the wall strong!" Brenda said.

Brenda swam back and forth all day, bringing as much mud as she could to the new lodge. Soon, she had made solid walls for the new lodge.

"That is wonderful", said Brenda's mother. "Thank you for helping to build our new lodge. When we work together, we get things done much faster."
