Albert Einstein - A Great Scientist from the Past

by Kerry Margo

The person I admire the most is Albert Einstein. He was born on 14th March, 1879, in the German town of Ulm in Württemberg. Einstein was the greatest scientist of all time. One of his most famous discoveries is the mathematical equation about the nature of energy: $E = mc^2$.

Einstein loved physics and learning. He never stopped exploring the world of science and he wrote many books and articles explaining his theories. Some of them are at the Institute of Advanced Study in Princeton.

People in universities all over the world respected Einstein. He was awarded with honorary degrees in science, medicine and philosophy. In 1921, he was awarded the Nobel Prize in Physics. Despite his intelligence, Einstein is also famous for being a very funny man!

I admire Albert Einstein for his love of learning and the fact that he discovered new things. He always kept his mind active.

e.g. Einstein was born in eighteen seventy-nine.
