

Hello everyone!

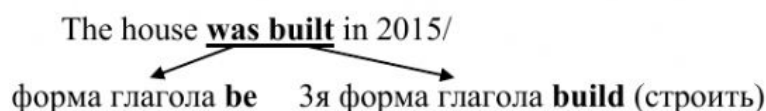

1. Let's start with grammar. Revise the rule.

Past Simple Passive

Формула все та же: **be+V₃**

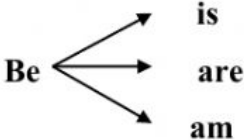

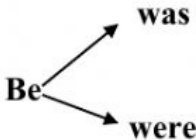

Но в прошедшем времени глагол **be** имеет формы **was** (для единственного числа), **were** (для множественного).

Например Дом был построен в 2015 году.

The kittens were given milk. – Котятam дали молока.

be+V₃
