 Carbon footprint largest categories of consumption

1. Read the information on the table and organize the data by counting how many students belong to each category.

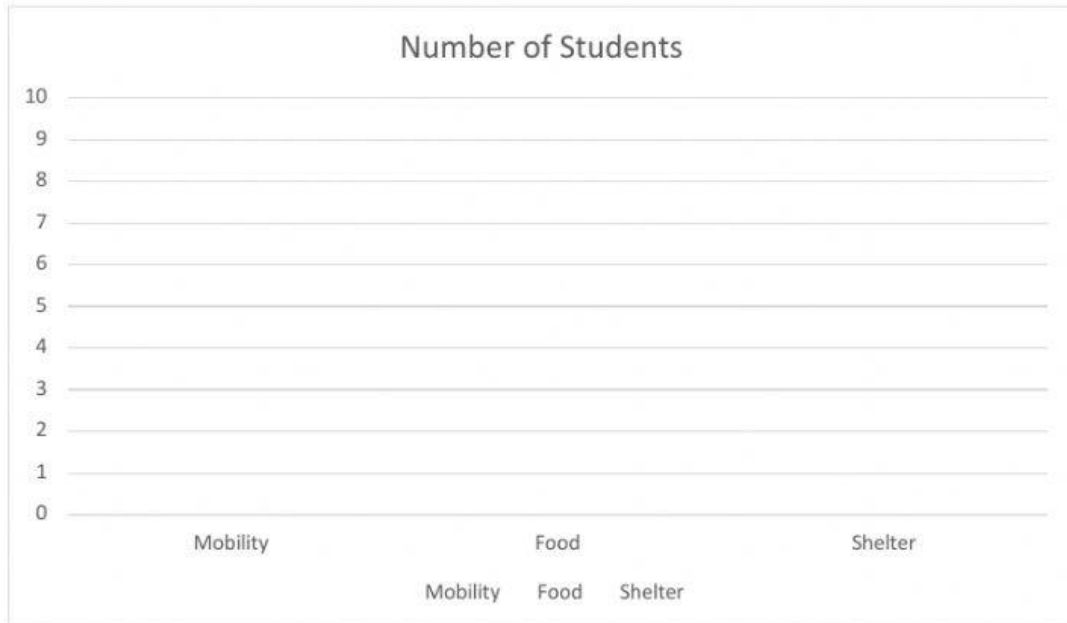

Largest Category of Consumption

Martina - Mobility	Maria Gracia - Shelter
Leandro - Food	Emilio - Food
Juliana - Food	Joaquin - Food
Julian - Mobility	Maria Victoria - Mobility
Agustina - Food	Camila - Mobility
José Miguel - Food	Benjamin - Food
Amelia - Food	Nicolás - Mobility
Alonso - Food	José Antonio - Shelter

Largest Category of Consumption

Category	Number of students
Mobility	
Food	
Shelter	

2. Drag and drop the bars in order to put them in the correct place according to the data. Then, answer the questions below.

1. What is the largest category of consumption of the class?

2. How many more students release more carbon dioxide with food than with mobility?
