During the process you will¹ have to go back and forth to steps since this² needs
to be updated with time.
The first step you need to take is to3 the career or job you hope to get.
Start by thinking about comfort. Will this job be very4?
Job advertisements will not announce the
<sup>5</sup> side of a job; this is for you to find out.
Look at the basic6 you need for the job,
do you have them?
Having these will give you an <sup>7</sup> over other
applicants and give you a strong start in the
career you're aiming for.
