# INVESTIGATE the Math

**Model**

Joy mowed $\frac{1}{6}$ of her lawn on Saturday. She mowed $\frac{3}{6}$ on Sunday. How much of her lawn has Joy mowed altogether?

Find the sum of the two fractions. Add the numerators.

$\frac{1}{6} + \frac{3}{6} =$ _____

Write the fraction in simplest form.

_____ = _____

Joy has mowed _____ of her lawn altogether.
