Nombre: _____ Fecha:_____

✓ Usa los círculos para calcular las sumas. Redúcelo a la mínima fracción.

$$\frac{1}{5} + \frac{3}{10} = \frac{2}{10} + \frac{3}{10} = \frac{5}{10} = \frac{1}{2}$$

$$\frac{1}{4} + \frac{3}{12} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} \quad \bigcirc = \frac{\square}{\square} \; \bigcirc$$

$$\frac{1}{10} + \frac{2}{5} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} \quad \bigcirc = \frac{\square}{\square} \; \bigcirc$$

$$\frac{2}{3} + \frac{2}{12} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} \quad \bigcirc = \frac{\square}{\square} \; \bigcirc$$

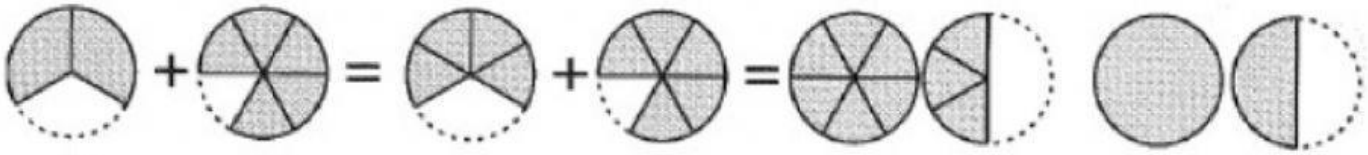

$$\frac{1}{2} + \frac{1}{6} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} \quad \bigcirc = \frac{\square}{\square} \; \bigcirc$$

$$\frac{1}{12} + \frac{2}{3} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} \quad \bigcirc = \frac{\square}{\square} \; \bigcirc$$

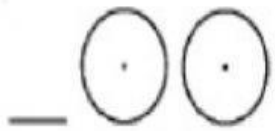

$$\frac{1}{6} + \frac{1}{3} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} \quad \bigcirc = \frac{\square}{\square} \; \bigcirc$$

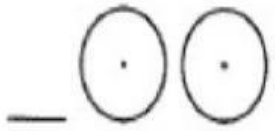

LIVEWORKSHEETS

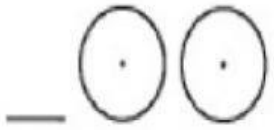

✓ Usa tus círculos y resuelve las sumas. Expresa el resultado en el mínimo número mixto. Pinta el resultado obtenido.

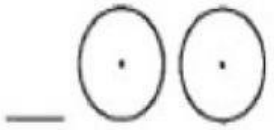

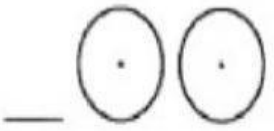

$$\frac{2}{3} + \frac{5}{6} = \frac{4}{6} + \frac{5}{6} = \frac{9}{6} = 1\frac{3}{6} = 1\frac{1}{2}$$

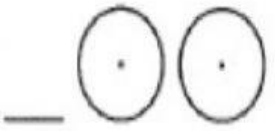

$$\frac{1}{4} + \frac{7}{8} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} =$$ 

$$\frac{5}{6} + \frac{1}{3} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} =$$ 

$$\frac{3}{5} + \frac{7}{10} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} =$$ 

$$\frac{1}{2} + \frac{3}{4} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} =$$ 

$$\frac{7}{12} + \frac{2}{3} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} =$$ 

$$\frac{3}{5} + \frac{9}{10} = \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} =$$
