

ANIMALS

Read the texts about the animals and do the tasks below.

1	2	3
Do you know that the kangaroo can't walk at all -but it can run at forty miles an hour !!! This unusual animal is very good at jumping. It can jump twenty feet at one time. A grown up kangaroo is only five feet tall, but it can jump over a car.	The camel can live without water for one week. It can walk over two hundred miles in the desert without drinking water. It can do this because it has three stomachs that hold water. And the hump on its back holds fat, so the camel can live without food for a long time, too.	The chimpanzee is a very clever animal. It is good at learning language. A chimpanzee can learn to use sign language, but it can't always use correct grammar. For example, a chimpanzee can use sign language to say, "Me want banana now," but not, "I want a banana now, please."

Can Kangaroos walk? _____

Do Kangaroos run? _____

Have camels got a hump on their back? _____

Have camels got two stomachs? _____

Is the chimpanzee a clever animal? _____

Can a chimpanzee learn to use sign language? _____

Is an adult kangaroo five feet tall?
