

Suma estas fracciones

$$\frac{2}{5} + \frac{3}{7} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\frac{4}{8} + \frac{6}{9} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\frac{7}{3} + \frac{2}{5} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\frac{4}{10} + \frac{6}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

Resta estas fracciones

$$\frac{5}{4} - \frac{2}{7} = \underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\frac{5}{3} - \frac{6}{4} = \underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\frac{7}{3} - \frac{4}{8} = \underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\frac{3}{5} - \frac{3}{8} = \underline{\quad} - \underline{\quad} = \underline{\quad}$$
