Exercise 1: Read the article and choose True or False:

Today is Sunday. Gwen gets up at 8 o'clock in the morning. She brushes her teeth, washes her face and has breakfast at 8:30. At 9 am, she goes to the shopping mall with her mother. They go to the shop to buy some clothes. They buy two pair of slippers, one pant and one jacket. A pair of slippers is 50000 dong, a pant is 200,000 dong and a jacket is 300,000 dong. The shopkeeper tells them "They are 600,000 dong". Gwen's mother gives the money to the shopkeeper and they go home.

1. Gwen gets up at 8 pm.

2. Gwen has breakfast with her mother at half past eight in the morning.

3. At 9 am, Gwen goes to the shopping mall.

4. A pair of slippers + a pant are 250,000 dong.

5. Gwen's mother buys two pair of slippers.

6. Gwen and her mother buy a pant.

7. Gwen gives 600,000 dong to the shopkeeper.

8. The jacket is 300,000 dong.

Exercise 2: Fill in the blank:
