

3 (a) Compare the lengths of the objects.

$$3 - 10 =$$

The sharpener is 3 cm shorter than the pencil.

$$3 - 14 =$$

The sharpener is 3 cm shorter than the pen.

$$14 - 10 =$$

The sharpener is the 14 cm longer than the pencil.

The pen is the 4 cm longer than the pencil.

(b) Arrange the objects in order of their lengths.  
Begin with the shortest object.

shortest

Can you arrange the  
objects from the longest  
to the shortest?
