

3 (a) Compare the lengths of the objects.

$$2 - 10 =$$

The sharpener is 2 cm shorter than the pencil.

$$2 - 14 =$$

The sharpener is 2 cm shorter than the pen.

$$10 - 14 =$$

The sharpener is the 10 cm longer than the pen.
The pen is the 4 cm longer than the pencil.

(b) Arrange the objects in order of their lengths.
Begin with the shortest object.

shortest

Can you arrange the
objects from the longest
to the shortest?
