- e If I _____ (start) studying English when I was younger, I would be fluent by now!

Reading

7 Read the text about different kinds of yoga and choose the correct answer.

If you've ever looked at the flexible bodies and peaceful faces of people in traditional yoga classes and felt yoga is not for you, think again. Yoga has changed dramatically in recent years and there's a class for everyone now. It began 5,000 years ago in India, and many yogis still travel to India today to learn from gurus about yoga and the lifestyle that goes with it. If you cannot get to India, though, but want to practice yoga, do not despair. There are thousands of books, blogs, courses, and – of course – a range of modern classes worldwide to heal both the body and mind.

If you enjoy music while you work out, you might be interested in noise yoga (with experimental music), hip hop yoga, karaoke yoga, or glow flow yoga, which features DJs, party lights and fluorescent body paint! Indeed, whatever music you're into, you will probably find a yoga class somewhere that uses it.

Yoga also provides a way to connect with nature (who doesn't love doing the tree pose in front of a tree?) and some people have taken that to the extreme. Snowga, for example, is a fun way to enjoy winter. If you're going skiing or snowboarding, putting your snow gear on and then doing half an hour of yoga outside on the mountain might seem strange, but it's popular way to start the day with some winter sports enthusiasts.

For people who love water, how about stand up paddle boarding (SUP) yoga? This really challenges your balance and develops core muscles, making it a good choice if these are areas you want to work on. It's less successful if you want to focus on your flexibility, where more traditional yoga is more useful. You can find SUP classes anywhere they practice water sports.

There's also dog yoga, or dogga! Dog owners say it helps them to bond with their pets to do exercise together. After starting in the USA, this new exercise craze has spread around the globe. The owners stretch and meditate while holding their pets or with their presumably well-trained dogs on the ground next to them. The focus is on sharing laughter and joy more than physical fitness.

If you're suffering from any kind of stress, yoga is a great way to relax. With all the different classes out there, you're sure to find one for you.

- a Is yoga different now from when it started?
() no () yes, a little () yes, a lot
- b How can you learn about yoga?
() by taking classes () by going to India () both
- c Are there musical yoga classes for any genre of music?
() yes () maybe () no
- d When do people do snowga?
() after skiing () before skiing () while skiing
- e What does SUP yoga really help you with?
() strength () flexibility () strength and balance
- f Where can you do dogga?
() India () The United States () worldwide
- g What do the dogs do in dogga?
() stretch () sit () get fit
