Fill the blank with the suitable word.

duplicate	identical	DNA	comparison	radiation
-----------	-----------	-----	------------	-----------

I have never imagined meeting an _____
twins. I was frozen in front of how the same they
were. It was impossible to do any _____
between both of them because they share the same
_____. If we were insisting to
_____ a copy, it won't be perfect like this.
But do you think that _____ might affect
their DNA? We need to do research about this.
