

# Wash Your Hands

Wash your hands after you go to the bathroom  
Wash your hands before you eat  
Wash your hands whenever they are dirty  
Wash your hands before you go to sleep

by Mike Soloway

## Chorus

With good ol' soap and water,  
Soapy soap and water  
Those squirmly, wormy germies  
They won't be stickin' 'round  
With good ol' soap and water  
Soapy soap and water  
Those squirmly, wormy germies  
Will be nowhere to be found

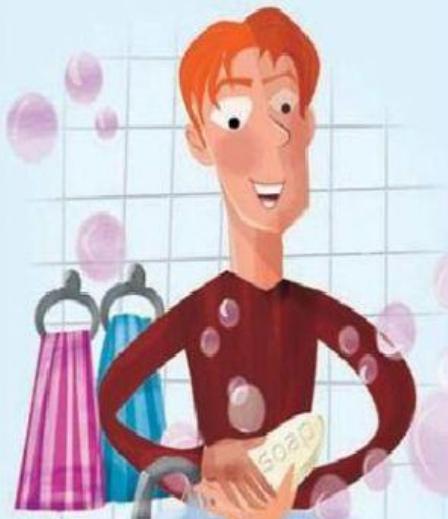

Oh those germs are hangin' on to your fingers  
Oh those germs are hangin' on to your skin  
They want to be part of your family

They want to be one of your kin

## Chorus ...

Oh those germs can make you have a fever  
Oh those germs can make you have a cold  
So wash your hands when they are dirty  
So wash your hands like you've been told

## Chorus ...

## QUESTIONS

1. When should you wash your hands?
2. What can happen if you don't wash your hands?
