6A What do colors mean in different cultures?

Objectives:.....

ENGLISH

- How many colors can you see in your classroom?
- What is your favorite color? Why?

LISTENING

Listening Strategy

Some words are stressed in a sentence. A stressed word is sometimes said more slowly and clearly than the other words around them. Stressed words are helpful because they let you know that this is important information. Sometimes, listening to the stressed words can help you get the meaning of a sentence.

Listen and complete with the missing

1 18 Students from around the world are visiting an Emirati classroom. They have come to do a cultural exchange. The teacher is starting a new activity. Listen to his presentation and follow. Underline the words that are stressed in each sentence.

1 Welcome students!
2 Today is the first day of our exchange.
3 Students from all over the world have come to visit, including the India, and

Did You Know?

A cultural exchange is when people from around the world meet to learn about other cultures.

You're going to talk about colors. Every culture connects colors to a meaning. For example, the color red means to be brave in Emirati culture. But in China, the color orange is a brave color. Get into your groups and find what colors mean to the world!

2 19 Listen to three students talking about what colors mean to their culture. Draw a line and connect the culture to the color. Then, connect the color to what it means for that culture.
