- Bananas
- Pasta
- Crackers
- Milk
- Cheese
- Fish
- Yogurt
- Peaches
- Cabbage
- Lettuce
- Peas
- Meat
- Chicken

Fruit	Vegetables	Grains	Protein	Dairy

C. COMPLETION QUESTION

3. Read the text and write the highlighted word under the correct picture.

Scientists already know for sure what will happen in the future. Industries will continue to cause many changes. One important change in the future will be the temperature. Scientists say that by 2050 the planet will have a **temperature increase** of 3 to 4° C. It seems like nothing, but it will have enormous effects on ecosystems. By 2050, the sea level will be 25 centimeters higher. With higher temperatures, the **defrosting** process in Antarctica will become twice as fast. The **glaciers** are going to melt. This will result in an increase in the sea level. Another consequence will be the **floods**. The likelihood of flooding in coastal towns will rise more than nine times. The economic losses will be greater than 50 billion dollars. The **growth of the Himalayas** will be another change. In 2050 the highest mountain range is going to be 165 millimeters higher due to the movement of the Indian plate below it. The nearby towns are worried about the possibility of **earthquakes** in the area. Eating fruits, and vegetables is going to be difficult. There won't be enough **crops** to meet world demand. There will be serious consequences for species such as birds. Scientists say that in 2050, 99% of **seabirds** will have eaten plastics. Compare your predictions about the future with the experts' predictions. Were your guesses similar?

D. MATCH QUESTION

4. Read the recommendations to take care of the environment and write each number next to the correct picture.

1. Put the rubbish in the bin

4. Use the car less. Ride your bike

2. Turn the light off

5. Take care of the plants. Don't cut trees

3. Respect and take care of your pets

6. Don't waste water

E. LABEL QUESTION

5. Read the vocabulary in the box and label each picture.

develop apps

cell phone

cry

infant

public

eye-catching
