shading

isometric

oblique

Term	Definition	Image
	<p>a type of 3D drawing where all vertical lines remain vertical. All horizontal lines project back at 30°</p>	A 3D isometric drawing of a purple cube. Red lines extend from the center of the cube along its edges to show depth. The cube is positioned in the upper right corner of the table cell.
	<p>a type of 3D drawing where the front face of an object is drawn, and the depth is provided by lines at 45°</p>	A 3D oblique drawing of a red cube. It is drawn from a front-on perspective with depth provided by lines at 45 degrees. The cube is positioned in the middle right of the table cell.
	<p>an artistic technique used to show areas of light and dark on a sketch</p>	A black and white portrait of a man with a beard, wearing a white turban and a dark robe, looking slightly to the side. This image represents the artistic technique of shading.
