## All about teeth!

Children have twenty teeth. Child's teeth we call milk teeth. When you are six years old, milk teeth begin to fall out. An adult has got thirty-two teeth. They are bigger than milk teeth.

We use toothpaste for our teeth. Brush your teeth two times a day: in the morning and at night. To have white and bright teeth brush them for 2 minutes. Get a new toothbrush every three months (mēnesj).

Some food is good for your teeth. Eat fruit and vegetables. Carrots and apples are good for you. Cola and cakes are bad for your teeth.

Dentist is a teeth doctor. Visit your dentist regularly.
