Contractions

A contraction is a shortened form of two words. For example, the contraction **aren't** is made by putting together **are** and **not**.

Read the contractions in the box below. Then read the pairs of words that follow. Write the contraction that puts those two words together on each line.

wouldn't	isn't	haven't
she'll	he'll	I'll

- is not _____
- he will _____
- have not _____
- would not _____
- she will _____
