MODE & MEAN

Write the MODE in each of the following.

1. 3, 5, 7, 6, 3, 9, 3

2. 13, 7, 12, 15, 12, 9

3. 4 kg, 3 kg, 2kg, 5 kg, 3kg

4. 14 m, 10 m, 6 m, 8 m, 6 m, 6 m

5. The table below shows the number of marbles 5 boys have?

Carlos	Keoni	Darius	Nathaniel	Yoseph
8	12	8	8	12

Which number occurs most frequently?

Calculate the MEAN of the following.

6. 4, 6, 12, 2

7. If the mean of 4 numbers is 15, calculate the sum of the 4 numbers.

8. If 4 books cost $36.20, calculate the average cost per book.

9. The mean of 4 numbers is 20. If three of the numbers are 24, 18 and 25, calculate the fourth number.

10. Harry's mean score in three tests is 56. Two of his tests' scores are 68 and 45. What is Harry's third score?
