

Mathématiques : Je calcule le périmètre d'une figure de base

Énoncé 1. Écris le calcul représenté et détermine le périmètre de chaque figure.

			
$P = \quad + \quad + \quad +$ $P = 4x$ $P = \quad \text{unités}$	$P = \quad + \quad + \quad +$ $P = 4x$ $P = \quad \text{unités}$	$P = \quad + \quad + \quad +$ $P = 4x$ $P = \quad \text{unités}$	$P = \quad + \quad + \quad +$ $P = 4x$ $P = \quad \text{unités}$

			
$P = \quad + \quad + \quad +$ $P = (2x \quad) + (2x \quad)$ $P = \quad \text{unités}$	$P = \quad + \quad + \quad +$ $P = (2x \quad) + (2x \quad)$ $P = \quad \text{unités}$	$P = \quad + \quad + \quad +$ $P = (2x \quad) + (2x \quad)$ $P = \quad \text{unités}$	$P = \quad + \quad + \quad +$ $P = (2x \quad) + (2x \quad)$ $P = \quad \text{unités}$

			
$P = \quad \text{unités}$	$P = \quad \text{unités}$	$P = \quad \text{unités}$	$P = \quad \text{unités}$
