How did my island look long ago?

What is the name of your island? What is the capital city or the main settlement of your island? We know that the name of our country is **The Bahamas**. Your island is one of the many islands of The Bahamas. Long ago, our island only had the sea with all the sea creatures living in them. On the land, were animals, trees, and birds living in the trees. Today, we still have the sea, the animals, trees, and birds, but we also have other things. Some of these are houses, shops, schools, roads, churches, land and sea transpotation, and lots of people.

Answer the following questions.

1. What is the name of our island?

   _____
