Choose ONE of the following and write your answer in 150-10 words. Remember to use the correct style and organization.

1 Email

The Ministry of Education has decided to increase the school day by one hour in order to allow time for more subjects to be taught in high schools. The subjects to be added are cookery, woodwork, sewing and basic electrical skills. Some teachers, parents and students are strongly against this idea but others believe that the proposed subjects are important life skills. As your class representative, write a letter stating your opinions and those of your class mates.

Begin your letter

Dear Education Minister

2. Essay

Due to the environment crisis, it has become more and more important that governments and individuals do whatever they can to help with this problem. Make suggestions about what can be done by both groups to save the environment.
