Hamster Cause and Effect

Read the story. After reading the story fill in the table with the causes and effects.

Yesterday, after playing with my hamster, I put him inside his cage. Moments later, I notice he had escaped because I did not close the lid tightly. I didn't know he was loose until I felt something running by my feet. I jumped quickly and hit the lamp. The lamp fell and crashed to the floor, making a loud noise. Soon my dad was in the room upset that he was awakened from his sleep. Suddenly, I heard a loud scream. It was my mom who was bitten by my hamster.

Cause	Effect
I did not close the lid	
	Loud noise
I jumped quickly	
	Mom screamed loud
	Dad was upset

Part 2: Say the word, Count the number of syllables and split the word into syllables. Example: hamster 2 syllables ham/ster

Word	Number of Syllables	Split the word into syllables
upset		
bitten		
playing		
cage		
until
