Revisa estos videotutoriales para repasar cómo transformar oraciones afirmativas en interrogativas (yes/no questions):
http://www.ies-modesto-navarro.es/european_section/8_flipped/videotutoriales/index.htm

Para hacer wh- questions primero ponemos la wh- word que indica qué información concreta queremos saber, y luego el resto de la oración en forma interrogativa. Ejemplos:

AFFIRMATIVE	YES/NO QUESTION	WH-QUESTION
She was sick yesterday.	Was she sick yesterday?	When was she sick?
He's got three cats.	Has he got three cats?	How many cats has he got?
I had some questions.	Did you have any questions?	How many questions did you have?
He lives in London.	Does he live in London?	Where does he live?
She's bought a book.	Has she bought a book?	What has she bought?
He'll travel by train.	Will he travel by train?	How will he travel?
You're going to have a lot of problems.	Am I going to have a lot of problems?	Who's going to have a lot of problems?

4.- Escribe preguntas para las partes subrayadas de estas oraciones; la respuesta a cada pregunta debe ser la parte subrayada. Ejemplo:
There are three trees in the garden.
→ How many trees are there in the garden?

She was at the zoo.

There were three kids with her.

Their uncle William was with them.

He brings them here every two or three months.

They like coming to the zoo because they love animals.

They usually come by bus.

They are looking at the monkeys now.

They are going to have lunch at twelve.
