

Name: \_\_\_\_\_ No. \_\_\_\_\_

## Science : Tornado

I. Label the following diagram.

eye of the storm	upward current	warm air
cold air	rain	ground level

II. Fill in the blanks to explain what the tornado is and how it occurs.

column      upwards      thunderstorm      cold & dry air      warm & moist air

A tornado is a violent and rotating \_\_\_\_\_ of air between a \_\_\_\_\_ and the ground. Tornadoes occur when \_\_\_\_\_ blows over \_\_\_\_\_. The warm air spins \_\_\_\_\_ and forms a tornado.
