

Day : _____ Date _____

Module 10 : The world around us -The Solar System

Read and fill in the blanks correctly.

There are eight planets in our solar system : Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus and Neptune. The sun is at the centre of our solar system. It is a star and all the planets go around it. Earth is the planet people live on.

Mercury is the closest planet to the sun. it is also the smallest planet. It is very hot but the hottest planet is Venus. Saturn, Uranus and Neptune are the coldest planets. Neptune is also the farther planet from the sun. Saturn, Uranus and Neptune are very big, but Jupiter is the biggest planet of all.

There are 1. _____ planets in our solar system. The sun is at the centre of our 2. _____ system. It is a 3. _____ and all the planets go around it. 4. _____ is the planet people live on. 5. _____ is the closest planet to the sun. The 6. _____ planet is Venus. Saturn, Uranus and Neptune are the 7. _____ planets. Jupiter is the 8. _____ planets of all.
