

Firstly - deal- Secondly -suggest – In conclusion -to start with -In addition-Thirdly – Thus –
Furthermore -

No one can deny that pollution has become a global issue. In The UAE as in all the world the government is striving to reduce pollution and find ways to save the earth. This essay will.....with the causes of pollution and ways to save the earth.

Experts believe that pollution is mainly caused by humans in a variety of ways;.....,people throw their rubbish hazardously and they threaten the environment....., humans build their houses in forests at the expense of animals habitats....., they harm animal life and grazing areas , people build factories which release poisonous gases in the air and lead to many diseases.

However, it is commonly believed that we can save the environment by simply following some steps;we should reuse recyclable items....., we must stop cutting trees and building houses at the expense of animals habitats. , we ought to use renewable energy instead of oil and fossil fuels.

....., The earth is suffering because of our greed. Unless we act together the future generation will be at risk.
