

# People and the Environment

**Instructions:** Complete the text using the words on the right.

The \_\_\_\_\_ of a living thing consists of everything that affects it. Environments include natural and \_\_\_\_\_ components.

\_\_\_\_\_ can have negative effects on the environment, such as \_\_\_\_\_, deforestation, \_\_\_\_\_, and an increase in \_\_\_\_\_ species. If a species completely disappears, we say it is \_\_\_\_\_.

National and local \_\_\_\_\_ have the obligation to protect the environment. Responsible \_\_\_\_\_ can also look after the environment.

National Parks and \_\_\_\_\_ are protected natural areas

**endangered**

**pollution**

**extinct**

**man-made**

**Nature Reserves**

**citizens**

**environment**

**desertification**

**human activity**

**governments**

**Instructions:** These are some of the components of the Iberian Lynx's environment. Tick (✓) the ones produced by human activity.
