The screenshot shows the Microsoft Excel interface with the 'Conditional Formatting' ribbon tab selected. The 'Conditional Formatting' button is highlighted with a red box. The 'Conditional Formatting Rules Manager' dialog box is open, showing the 'New Rule' tab. The rule is based on the formula '=SC\$3:\$C\$30' and is applying the 'Cell Value > 0.7' format. The background shows a spreadsheet with Arabic text and numerical data. The 'Conditional Formatting' button in the ribbon is highlighted with a red box.
